Ana Paula Garcia

Hello, my name is Ana Paula; I love golf, since I was very young, I play this sport, and I participate in many National Tours and Tournaments in my country México. From a very young age, I watched my brothers play, and I think that, from there, I caught this sport.

Since I was 6 years old, I have participated in Tournaments, and since then, I have had very good results; and I have won many trophies and recognitions. I was born to play golf, and I want to become a professional player, that puts my country Mexico very high. From a very young age, I discovered that, this sport comes to me very naturally; I could say that, for all that I have achieved, I am one of the best players in my country.

What I would love to do is, go play tournaments outside of Mexico; I really want to play with girls from other countries. In each tournament that I play, and each time I change category, it is a great challenge, where I try to learn from everything that happens to me, to grow in my sport and keep learning. Golf is something that I would like to do all my life; get where I have to go; with my achievements and, with the desire that I put into what I'm doing; it's a long way but, here I go. Thank you for having this platform; where we are taken into account, for valuing what we all do, in our sport, anywhere in the world, that's cool.

KANANA MUTHOMI

My name is Kanana Chepkurui Muthomi. I am a passionate 9 year old junior golfer from Nairobi, Kenya.

Growing up, we all have dreams. My dream is to play golf like Tiger Woods and Nelly Korda, and get to play at the LPGA and win a major for my country. My home club is Windsor Golf Course. I always put in the work at any free time I get at the range and at the course. My mom always captures the moments and always motivates me.

Golf can be so contagious, you play it and can't stop. But since I have school, I still have to balance between school, playtime with friends and golf. We all have challenges and golf mirrors day to day life. My parents took the decision to have me home schooled so as not to miss any school or any golf activity. This has so far been so easy for me. I get time for both golf and school work.

I remember I started playing golf at the age of 5. That's the first time I also got my first golf set. I would follow my dad, who's now my caddie to the course and while at the range too. I picked up golf so quick since every weekend my parents will load bags to the car and we called it a weekend full of golf! My greatest achievement is that, I have really grown up a lot faster on the golf course because golf teaches you how to behave. I also played a major tournament, The Junior Challenge Championship in South Africa, representing my country Kenya. I took the first place, in the girls 7 years category. This motivated me a lot and was proud of myself. This got me featured in the BBC sport news. Link <https://youtu.be/CL5UESsRSgw>

Special thanks to my coach, Pro. David Opati, my parents, Reve Golf Shafts for sponsoring me and my supporters.

Thea Hockenbury

**Thea
Hockenbury**

Thea started playing tennis about a year and a half ago. Most of her motivation stems from the 2019 US open tennis tournament in NY where she was able to watch the professional players practice. She met a few of them including Madison Keys, Victoria Azarenka, and Maria Sakkari and suddenly there was an unprecedented desire to play.

Thea trains six days a week and takes one day off. She

trains anywhere between two to four hours each day. The weather never stops her. She has been limited in tournament participation due to her young age; however, her immediate goal is to play in the 2021 "Little Mo" and gain tournament experience where she will most likely be the youngest participant.

Thea was recently able to spend some time with Taylor Wingate, a former US Open tennis

champion. She played some rallies with him, and he provided her with words of continued encouragement even stating that she was a "phenom."

She really enjoys meeting new people because of the sport and has made many friends along the way.

Her aspiration is to one day become the French Open tennis champion at Roland Garros.
