My name is Anabella O'Mara. I am in 6th grade. I have been playing soccer since I was 3 years old and soccer is a sport that I love so much and enjoy playing. I joined the travel team when I was 9 years old. A lot of the girls on the team were older than me. I was a little nervous playing, but I stood up to the challenge and played my hardest throughout the seasons.

This past spring I was announced Captain of the U11 and U12 travel team. I showed leadership, good sportsmanship and commitment. Our team won the 2021 Championship. I recently made the middle school team for this school year and was named captain.

This past spring, I also tried out for the East Haven softball league. It was my first time playing. For someone who never has played softball before I feel I did very well. I was scared at the beginning because of the fast

pitches from some of the teams but by the end of the season I was swinging the bat without being afraid.

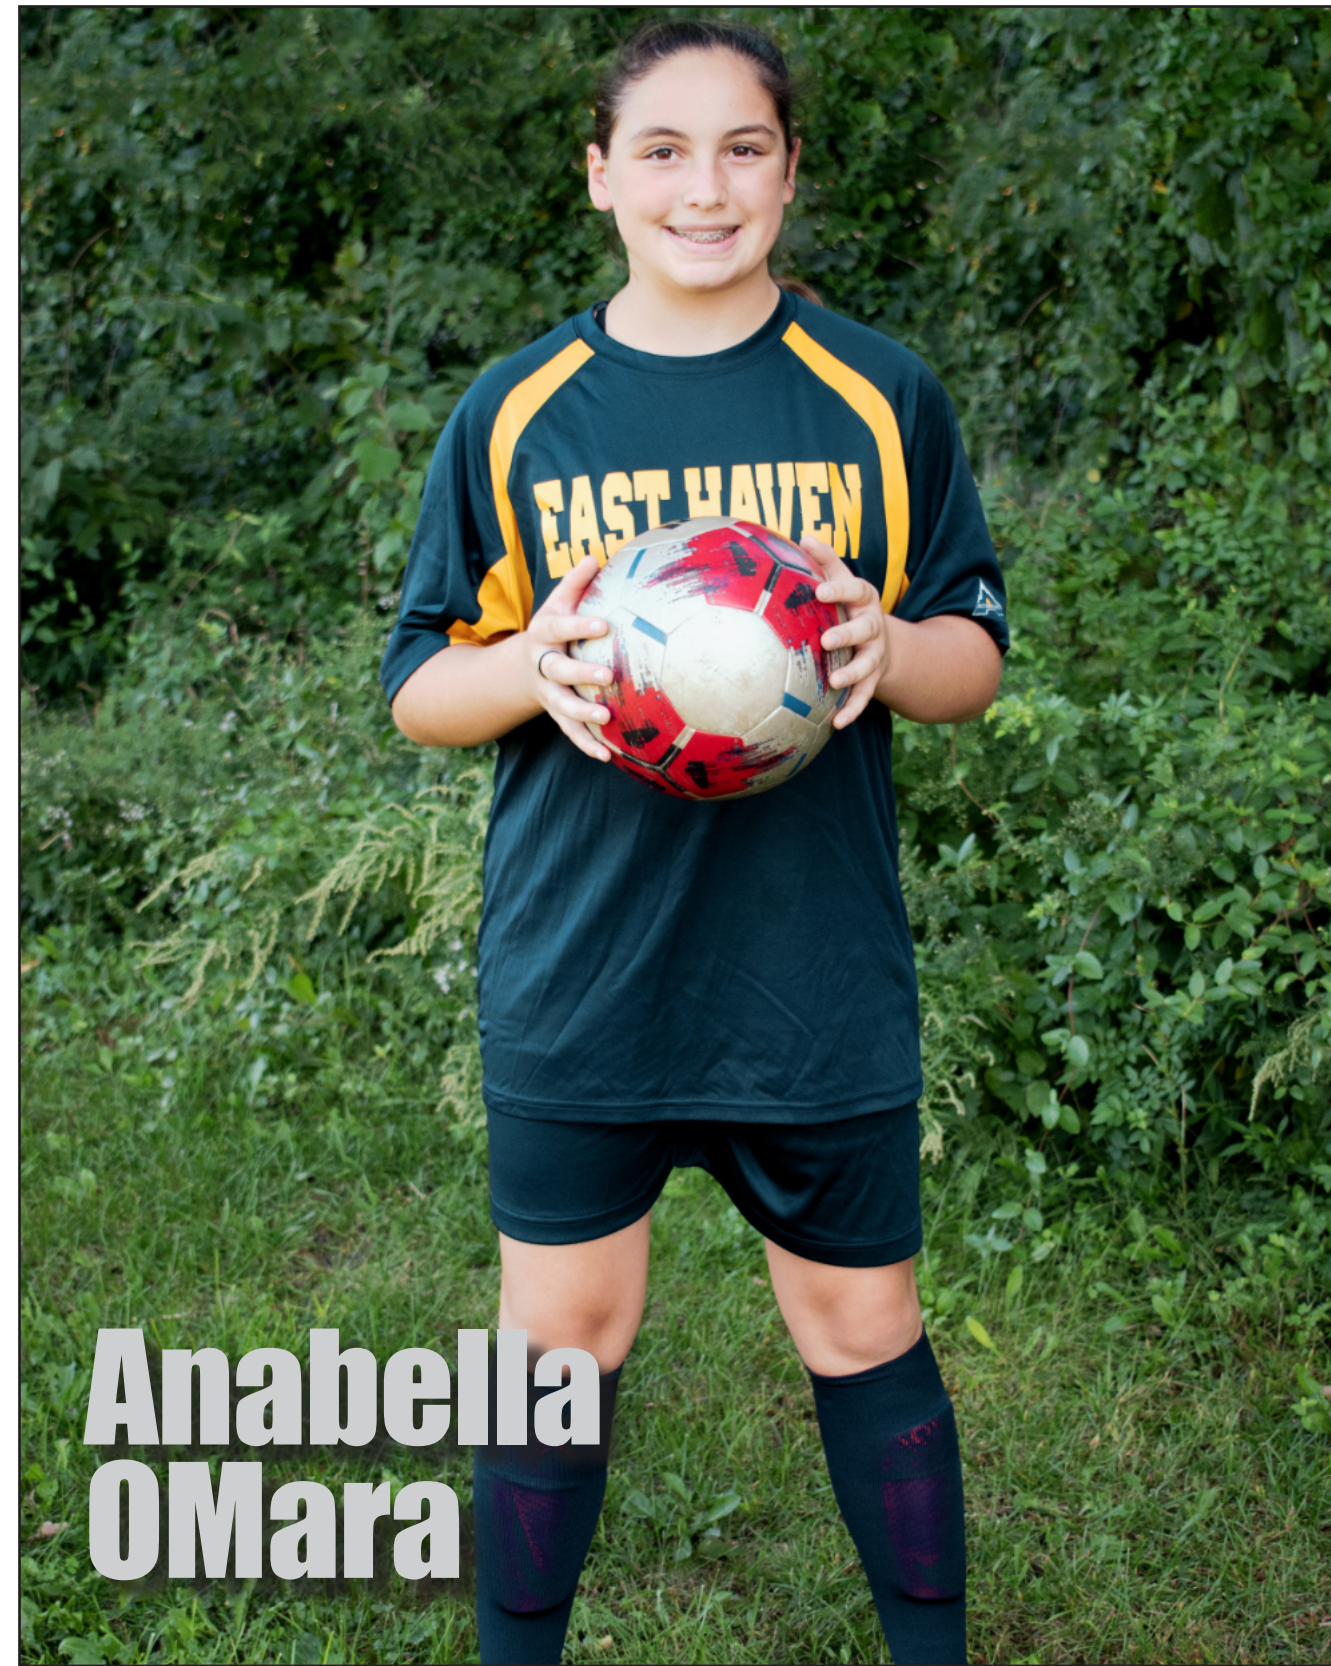

I have always enjoyed doing well in school and I have received the honor of student of the month every year since kindergarten. I was just voted

student class president and when I grow up I would like to get into politics. My dream is to be the President of the United States.

Someday I would like to play college hockey for a D-1 school. I am in 9th grade, but I lettered as a varsity hockey player for my high school team in 8th grade. I love hockey—it makes me happy. I love being part of a team and part of our small town tradition here in my hometown.

My name is Christopher Sfreddo, I am 6 years old and I am in first grade. I enjoy participating in many sports including baseball, soccer, basketball, dancing, skateboarding and riding my bike. I love playing sports because I like to make new friends, be part of a team and exercise to stay healthy.

My dream is to be famous one day and to have my own YouTube channel. When I grow up I would like to be an astronaut and an architect.

Well, mainly my goal is to enjoy the sport that I practice, but nevertheless one of my dreams would be to get to play in the first division of the Spanish league, but as I said before, always enjoying the process

Since I was four years old, I've been acting on stage. I've always had an interest in hockey, but I knew that it took great skill and that most of the players had been playing since they could walk. I attended my best friends hockey games and I just knew I wanted to give it a shot. After having the lead role in a big production, I decided to take a break from acting for a while and hit the ice. I got geared up, did some lessons and trained with some amazing coaches. I then tried out for the Junior Everblades travel 12U team. I didn't hear back. About three weeks later I was asked to be a "practice player" on the team. I graciously accepted. I didn't give up. My parents supported me every step of the way. I was also on the rec team and was out there every night practising. Whether a private lesson, stick and puck or practice with my rec. team, I was determined and I showed up. I was still a bit shaky on skates, but I attended some extra classes and clinics to become a better skater. I will never forget my first goal during my rec game. It was an amazing feeling and I felt unstoppable after that. The very next evening I got a text from my coach asking me to be a "regular player" on the upcoming travel team. I was beyond excited and ready to begin the season. Since the season started a few weeks ago, I've already had over 10 assists and even more goals. I consider myself lucky to have made the team with only have played hockey for less than a year. I can see my hard work is paying off and I'm not stopping here. I am so thankful for my coaches patience and persistence. I am even more grateful for my parents and family for sticking with me and believing in me. Once my skates hit the ice, I knew this was where I belong. This has been a dream come true for me. My team is the absolute best. I love this sport and hope to continue playing throughout the years.

I want to go to the MLB . Why? Well , this is not only my dream,, this is also 2 of my cousins as well. Our uncles couldn't make it past college and scout teams so we wanted to be the first in the family to get drafted . I want to stick to this goal and stay

committed. I finally am able to play travel ball since there hasn't been any teams out here where I live, I also look forward to playing tournaments to get our city put on the map!

# Mathéo Ross

Mathéo put on his first skates at the age of 2 1/2 and started hockey at the age of 7. In a short time, he became the best player on his team and he won many honors. His strength of character and his great determination to learn are two of his main qualities. Mathéo dreams of finding the coach who will see in him the talent he has and who fully believes in his potential for future high-level

hockey. For the past two years, this 10-year-old boy has been cut off from the elite teams he dreams of playing with. With resilience, he promises to continue improving to one day get to be part of the elite teams. He's not afraid of the cold and every night he can, he goes to the neighborhood rink to have fun at one of his favorite sports: hockey.

I have been playing hockey since I was 4 years old, I play both ice hockey and ball/dek hockey. I am looking forward to my first year of Varsity high school hockey playing for Bishop McCort Catholic High School. I hope you eventually play hockey in college and obtain a degree in Engineering. I would also love to play in the Olympics for the USA.
